Messages from Leaders of the Department

Mr. Kamran Khan Bangash

Special Assistant to Chief Minister KP for LGE&RDD

The outbreak of COVID-19 (commonly known as Corona Virus) has been declared a global public health emergency. Spread exponentially and declared as pandemic, this disease demands that Governments take all possible precautionary measures to decelerate its pace to prevent further transmission, reduce its impact and support control measures effectively.

The Government of Khyber Pakhtunkhwa has responded by adopting appropriate measures including lock down with the exception of allowing only essential services, which include LGE & RDD as well. The Local Government Department is the face of the Provincial Government to lead its response against Covid-19. All field formations and personnel of LGE & RDD are working in the whole of province including the Merged Areas to ensure disinfecting the environment and cleanliness and raising awareness among the citizens and communities.

Though the pandemic is taking its toll, we believe that our well planned and timely response and with support of the citizens, which has so far shown encouraging results, will continue and believe that with our resolve, preparedness and capabilities, we shall overcome and defeat this pandemic with the help of Allah Almighty In Sha Allah.

Mr. Shakeel Ahmad

Secretary to Government of Khyber Pakhtunkhwa for LGE&RDD

The LG&RD Department is optimizing every available resource to play its critical role in minimizing and controlling the impacts of Covid-19. This is complemented by the guidance and patronage of the political and administrative leadership of the province which is providing every support to assist the Department to perform its due role during these trying times.

Our field units and staff are trying to prevent the rapid transmission of this disease by adopting all possible measures including disinfection sprays, promoting hygiene practices, and undertaking awareness campaigns with the communities through Masjids and other community centers. A robust coordination and feedback mechanism has been put in place, where the lessons learnt in one place are quickly replicated and scaled up across the province. All this effort has been carried out without any additional cost to the Public exchequer by efficiently utilizing the existing resources.

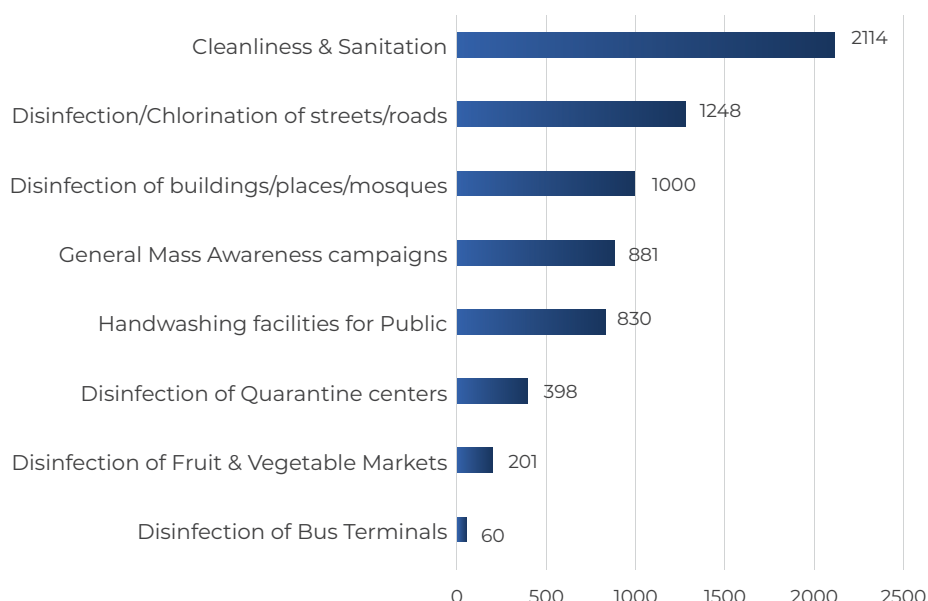

The whole team of LGE&RDD is confident and hopeful that people of Khyber Pakhtunkhwa will successfully overcome this pandemic.
